WOW!!! Last week I mentioned that a producer had some hay for sale and as of today he has sold it all. If you have hay you would like to sell give us a call and we will advertize it for you. It seems that there are many people who are in need of hay at this time and if we get a break in the weather this opportunity will be gone. If this weather holds on the need for hay will become even greater.

One more bit of information. If you are planing to sell your livestock it is important that you let us know of your intentions as far in advance as possible. This gives us a chance to not only advertize for you but also let you know if weather is going to be a problem at the last minute. If we don't hear from you we can't let you know what is happening.
