MONDAY'S FEEDER CATTLE

Sale Starts 12:30 PM

RECEIPTS THIS WEEK: 1438

Compared to the last tested market two weeks ago, feeder steers \$2.00-\$4.00 higher, heifer calves under 500# fully steady, & feeder heifers over 500# steady to \$2.00 higher. A very active market on the feeders over 500# as the slaughter cattle market continues to work higher every week, which in turn adds more money to the feeder market the following week. The feather weight calves were not fought after as much as the weather is less than ideal for most people to handle small calves. Temperatures are just above freezing with heavy rain in the forecast, & lots are already plenty muddy.
