## MONDAY'S FEEDER CATTLE

Sale Starts 12:30 PM

**RECEIPTS THIS WEEK: 72**

To few for a trend. The mostly dry weather around Northeast Missouri since the first part of July has pastures becoming very short & crop yields suffering.

### FEEDER STEERS & HEIFERS

Mostly scarce with the few available head offered as singles or in small packages.

**RECEIPTS LAST WEEK: 806**

Finally some cooler temperatures that allowed producers to move cattle without worrying so much about the heat stress on the cattle & cattlemen alike. The stock market continued its' freefall on Monday, dragging some other commodities lower along with it, but the beef market continues to hold up strong. No other time in history, at least to this reporters knowledge, has the DOW JONES sold off over 500 points on one day & the feedyards traded fat cattle as much as 5.00 higher on the next, like happened last Thursday & Friday.

### FEEDER STEERS
